Those part-time employees not assigned a regular shift will be assigned on an as-needed basis to flex units that may be staffed on a temporary interim basis as needed to meet peak demand (evaluated on a day-by-day basis), increased demand (evaluated periodically throughout the bid cycle), and/or may be assigned to shifts that become available due to absences of other employees. In all such cases, awards will be made on a seniority basis pursuant to operational needs.

Those part-time employees not assigned a regular shift will be assigned on an as-needed basis to flex units that may be staffed on a temporary interim basis as needed to meet peak demand (evaluated on a day-by-day basis), increased demand (evaluated periodically throughout the bid cycle), and/or may be assigned to shifts that become available due to absences of other employees. In all such cases, awards will be made on a seniority basis pursuant to operational needs.
